We Make It Ourselves

We make it all here, with grapes from here.

Cathedral Ridge is a family-owned winery that makes all of their wine on site, with grapes from the Columbia Gorge. Although we consistently produce award-winning wines, Cathedral Ridge is a non-pretentious winery that believes whole-heartedly in creating great experiences around wine with emphasis on entertaining and enjoyment. We offer an excellent selection of varietals, classically made with passion and skilled hands. Our portfolio targets a wide spectrum of palates.

Our working winery in Hood River, OR includes rare vineyards, wine press and bottling, a beautiful and expansive picnic area, tasting rooms, barrel aging rooms, a vast wine library and much more.
